## EDUCATION

### Full Stack Web Development

Masai School

July 2024 - April 2025

### Bachelor of Engineering

Technocrats Institute of Technology (Computer Science and Engineering)

July 2015 - June 2019

## SOFT SKILLS

Teamwork | Problem Solving | Adaptability | Time Management

## CERTIFICATIONS

[Construct Week Participation Certificate](#)

# Mahesh Yadav

## Node JS Developer

### PROFESSIONAL SUMMARY

Innovative Node.js Developer with strong proficiency in JavaScript. Adept at leveraging Generative AI and learning new tech rapidly. Extensive experience in creating efficient backend solutions and seamless API integrations. Excellent communicator, thriving in collaborative environments to elevate software quality and system performance.

### PROJECTS

#### 1. The Itinerary Planning | |

JavaScript | React | Node.js | Express.js | MongoDB |

RESTful APIs | Git | Responsive Web Design

- Collaborated with frontend developers to design and implement RESTful API endpoints using Node.js and Express.js for seamless integration.
- Developed server-side components ensuring reliable communication with MongoDB database for storing travel itinerary information.
- Conducted regular testing and debugging to improve the performance and scalability of the backend application.
- Utilized Git for version control and engaged in daily code reviews to maintain high code quality.
- Led backend development efforts by coordinating with cross-functional teams to achieve project goals effectively.

#### 2. Real time chat application | |

JavaScript | Node.js | Express.js | HTML5 | CSS3

- Collaborated with frontend developers to design and implement seamless real-time communication using Socket.IO.
- Developed and maintained server-side logic with Node.js, ensuring efficient message delivery and response times.
- Designed RESTful APIs to handle user authentication and real-time data exchange in chat rooms.
- Optimized server configurations and database queries to enhance performance, supporting hundreds of concurrent users.
- Conducted comprehensive testing and debugging to ensure application stability and reliability.
